ADVANCE REVIEWS

"All I can say is WOW! This book is so focused and boiled-down that the information presented is really the key, shocking, killer stuff. Focused like a laser!" - Tony Burtovoy

"That is one interesting book!! And one that I can even understand! It's AMAZING all the connections there that have been overlooked (or locked up) throughout all these years. It really does fit better than anything else. Most everyone just put their twist on the old standby but this is entirely different." - Larry Shuck

"Your study on the ground needing to be cleansed from the guilt of shedding innocent blood was something that I have never read about before. And tying it in with the trumpet judgments. I could probably go through each chapter and let you know of things that I enjoyed and were new to me." - Stephen Hamburger

"Every time I read this model I become more convinced that this is the correct interpretation. Great job." - David Shelton
